- ◆ New Employee Incentive
- ◆ What we offer
- ◆ Functional Skills Learner Testimonial
- ◆ Advanced Learner Loan
- ◆ Meet Laura our recent addition to Aurelia
- ◆ NEW APPRENTICESHIPS
- ◆ Mental Health links

We have moved!

Not far so don't worry, we are in the same building but on the ground floor.

As usual now we are back delivering face to face we can look at workshops on site or in our new offices.

How can we help you?

Do you have new or existing staff who you would like training for or to upskill?

What course good they do? DO you require short courses Accredited and non accredited.

Contact Bob on 01926 511 855 or at BH@aureliatraining.com for further advice and guidance.

“Julie has helped me with my maths and English. when I started this course I had no confidence as thought I couldn't do it. She has given me the confidence I needed and has been there when ever I have needed support she is a brilliant teacher and a credit to her profession. I couldn't have done it with out her help she has helped me with my anxiety over my son . Felt stupid when I first started the

Meet Laura our most recent member of the Aurelia Family.

Also read about her involvement with her choir.

Hi, my name is Laura Curson and I am a tutor with Aurelia Training. I have been here now for 9 months, and I absolutely love it. I've worked in care since 2004 in a learning disabilities home in Southampton. This was a real eye opener for me, and it started me on my path in care. After a few years of supporting adults with learning disabilities I moved on to supporting adults in their own homes. I loved this role, and it was whilst I was doing my Level 3 Diploma in this job that I decided I wanted to become a tutor myself, as my tutor was brilliant and supportive. I then went to night school in 2012 to complete my Preparing to Teach In Lifelong Learning Qualification, which I passed in 2013.

I was then taken on by a training company and started to teach health and social care while completing my assessor's qualification on the job. I've been qualified now since 2014 and I love to watch my learners develop. I like to see how once they complete their course how they progress. I am very proud to have seen some of my learner's progress from a level 2 and then go onto to university and a complete a degree and master's in nursing.

North Solihull Singers 15 year anniversary Concert

Hi all, Aurelia recently sponsored our choir during our 15-year anniversary concert, at the Core theatre in Solihull. The choir has been a bit part of mine and my family's life for the past 12 years. Me and my mum joined the choir back in 2010, I have had sporadic membership as I lived away for a while but I joined again once I moved back in 2016. In 2017 while I was ill the choir rallied around my mum and supported her, at there concert that year, all proceeds went to the hospital charity where I was cared for. The choir is a fun part of my life and also helps with my mental health as well as the social aspects of the choir. We perform normally around three times a year and we are a bit part of the community. The recent concert was to celebrate 15 years of our choir being formed and it was our best show, we even sold out the theatre. We sang a variety of songs and some members had solos. We also had the winner of the Solihull rising star competition sing with us, a pervious winner was also on the voice kids.

Thank you for all your support and long may it continue.

New Apprenticeships for 2022!

Textile Care Operative L2

The textile care industry encompasses commercial laundry and dry/wet cleaning. Commercial laundries provide laundry services and often product rental, to a wide range of sectors in the UK. This includes work-wear for manufacturing, industrial, food, transport and pharmaceutical sectors; and linen for hospitality, catering, hotel, hospital and care sectors. Dry/wet cleaning is defined as high street aftercare of garments and fabrics using solvents such as perchloroethylene or hydrocarbons (dry) or the relatively new aqueous-based process utilising detergents (wet).

Healthcare Cleaning Operative L2

Healthcare and hygiene environments that require specific attention to infection control, safety and sanitation for the health and wellbeing of service users. This includes a range of both public and private sector environments that require high levels of cleanliness to avoid the growth of bacteria and the spread of diseases and viruses. The Healthcare Cleaning Operative may also work in establishments that require cleaning to a healthcare standard to prevent adverse effects on the health of high-risk service users.

Retailer L2

The main purpose of a retailer is to assist customers when they purchase products and services, which requires a good understanding of the stock being sold, the variety of ways customers can shop and the ability to process payments, for example, using a till. They can work in a variety of shops and other retail establishments: small boutiques, large high street chains, supermarkets and well-known department stores are just some examples. More specialist retailers include funeral services, garden centres, delicatessens and people who work in remote environments for example in telephone, on-line and mail order retail. Regardless of the type of products and services being sold, a wide representation of employers from across the retail industry have defined this standard and agreed that the knowledge, skills and behaviours that apprentices must have to do their job are the same.

Supply Chain Warehouse Operative L2

Warehouse Operatives work in a variety of warehouse environments. Work activities include taking deliveries, checking for damaged/missing items, storing goods, moving stock by various methods, picking/packing orders, loading goods for dispatch, maintaining stock records and documentation, and cleaning. They are required to safely use a range of equipment, machinery and vehicles, as relevant to their role and setting. This could include mechanical racking systems, materials handling equipment (MHE) or fork lift trucks.

Finally as we come to the end of another week, I am sure that we are all watching the devastation in Ukraine with sadness. It is a truly awful situation and we can only hope that there will be peaceful solution quickly. Our thoughts will be with the Ukrainian people in the days and months ahead. These are very challenging times and we are aware that they affect our learners in different ways. Information on how to broach the subject with children, help your own anxiety or that of others is available on our website

or through the following links.
